**ANY ROAD PUSH FOR COUNTY OR STATE ROADS ADD \$200.00 MORE**

- Additional costs for digging, copper from house to curb, valve inside of house, tie in's etc. are homeowner's responsibilities.
- Meter pit installation will cost **\$650.00, INSTALLED BY CUSTOMER, INCLUDES:** Application fee, meter, meter setter inc. valve, **Drainage required on all Meter Pits.** Contact the Water Department to see if a meter pit is required for your service or a one inch line service. Meter Pits will be required if residents do not have a basement. After the meter pit the use of copper or equivalent of PEX Water Service Tubing with tracing wire on tubing lines must be used.
- The Town of Portland requires the use of Watts's pressure valve 24AUB or equivalent; due to the high pressure in Water District. **(80 PSI or over – required by law) THIS IS THE OWNERS RESPONSIBLY.**
- The Town of Portland strongly recommends brass or nylon fitting after the meter connections.
- Special Highway permit needed to cross town roads with open cut.  
Cost \$ \_\_\_\_\_ plus \$ \_\_\_\_\_ per ft. of pavement.

**By signing your water application you are agreeing to all the above terms.**
